

Sign Stand Directions

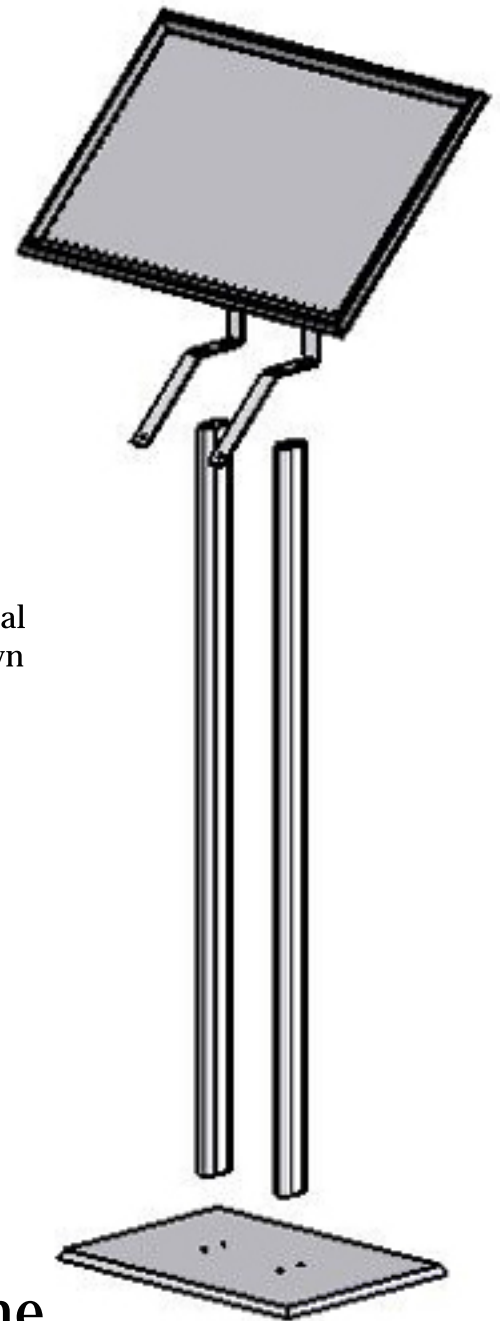

Step 1:
Fasten the Base to the Elliptical Posts with the provided bolts. As shown to the left. Repeat this process for both legs. Phillips Head Screw driver required.

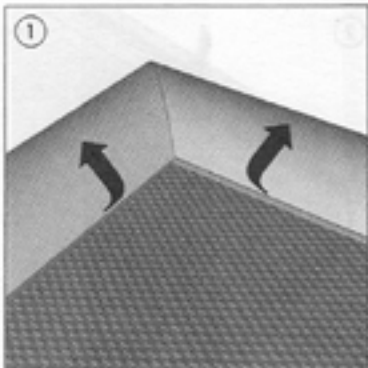

Step 2:
Fasten the Frame Brackets to the Elliptical Posts with the provided bolts. As shown to left. Repeat this process for both brackets. Phillips Head Screw driver required.

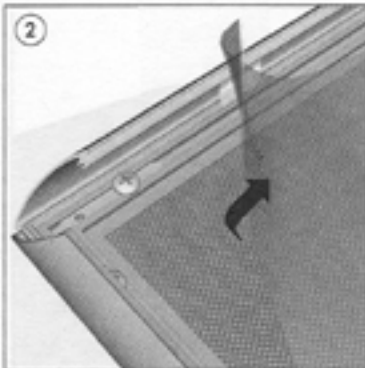

Step 3:
Fasten the Snap frame to the Frame Brackets with the provided bolts. Use the predrilled holes located under the top and bottom frame profiles. Repeat this process for both sets of holes in snap frame. As shown to left. Phillips Head Screw Driver required.

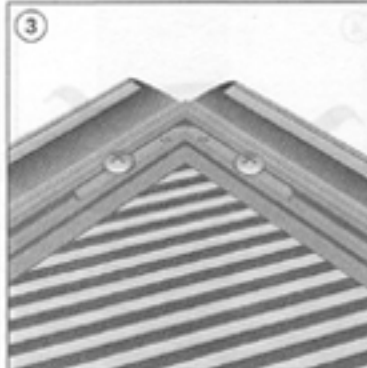

Inserting graphics into the snap frame

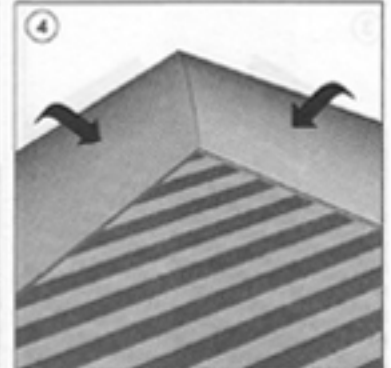

-Pull all profiles upward

-Take out anti-reflective cover

-Place graphic in frame and then place anti-reflective cover over graphic

-Close all profiles downward
