

# FILE REQUIREMENTS:

CMYK Minimum 150 DPI Convert all fonts to outlines Embed any linked images

### IMPORTANT:

Before saving, please turn off or delete the "Template" layer. SLW will not be held responsible for guides left in your artwork. When saving please save as press quality PDF.

#### Please check the following:

All company details (phone/fax) Spelling Correct colours are used Correct template is used

Positioning of artwork

Please note that because of the way we see light, colours printed with ink look different to colours displayed on a computer screen. It is therefore essential that the correct corporate colours be specified by the client before printing. Providing pantone colours ensures the colours are printed as close as possible to your corporate colours.

# Graphic Size \ Trim Line

The "Graphic Size" on the template is the total area of the graphic that is printed and where the graphic will be trimmed to.

Total size 2390mm x 1370mm

## Safe Area

The "Safe Area" on the template is the front viewable area that will be clearly visible after the graphic is erected. Keep all text and important images within this area.

# Obstructed Area

This part of your image will not be visible due to the banner unit that holds the print.
