The Graphic size is the total viewable size of the product

Bleed line

Extend all images/backgrouds to this edge

Please check the following:

All company details (phone/fax)
Spelling
Correct colours are used
Correct template is used
Positioning of artwork

Please note that because of the way we see light, colours printed with ink look different to colours displayed on a computer screen. It is therefore essential that the correct corporate colours be specified by the client before printing. Providing Pantone colours ensures the colours are printed as close as possible to your corporate colours.

- CMYK Color
- Resolutions must be at least 150 dpi
  (@100% of actual size)
- All fonts to be outlined
- Embed all images in final document
