

DISPLAYSHOPS

Bleed Line

Extend all images/backgrounds to this edge
600mm x 1620mm

Graphic Size \ Trim Line

This is the edge where the printed graphic will be trimmed and sewn.
580mm x 1600mm

Safe Areas

These main viewable areas will be clearly visible when the graphic is setup. You should keep all text and important images within this area.

Fold

This is where the graphic will fold or wrap to fit to the contours of the trestle table.

FILE REQUIREMENTS:

CMYK

Minimum 120 DPI

Convert all fonts to outlines

Embed any linked images

IMPORTANT:

Before saving, please turn off or delete the "Template" layer. SLW will not be held responsible for guides left in your artwork. When saving, please save as High Quality Print PDF

Please check the following:

All company details (phone/fax)
Spelling
Correct colours are used
Correct template is used
Positioning of artwork

Please note that because of the way we see light, colours printed with ink look different to colours displayed on a computer screen. It is therefore essential that the correct corporate colours be specified by the client before printing. Providing pantone colours ensures the colours are printed as close as possible to your corporate colours.
