

## How to Care for your Banner

**Handle Banners / materials in a clean area with clean hands [ we recommend white gloves during set up and dismantle.**

### **If Banners becomes Wrinkled**

- Hang in a natural position on rails and banner will reform their natural and original state after time
- If required use a very low heat and iron the opposite side of Graphics. For double sided graphics place a clean white cloth over graphics prior to Ironing with low heat.

### **Cleaning Tips**

- Treat Stains as soon as possible for best results
- Carefully Brush off loose dirt , Static tape is recommended to remove loose dry materials such as dirt.
- For Light cleaning use lukewarm water [not exceeding 25 degrees] with a natural soap - avoid detergents.
- Use minimal amount of water to avoid making / spreading stains to a larger areas.
- Use a white cloth, dab stain from outside edges inward to avoid spreading stains.
- Never pack away banner graphic whilst wet or damp.
- If banners are subject to ongoing elements and water repellency is important banners should be treated with Scotchguard Fabric Protector or similar.

**Warning – Never Dry Clean. Using warm to hot heat can damage graphics , Never store graphics damp this will cause mold.**
