

Lightbox Instructions

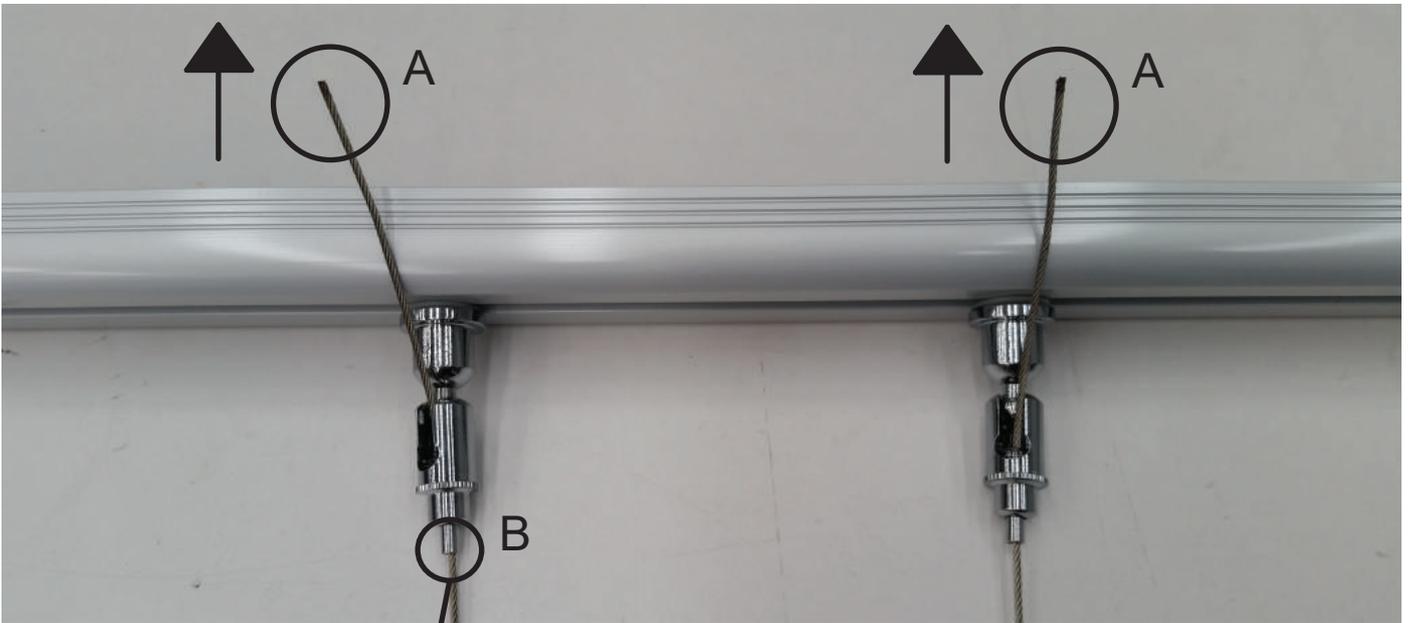

Electrical appliance -
Do not connect to power until Installation is complete

1. Installing the Top rail, determine the best side for power connection as the Connection plug (1) can only be inserted in one end.
2. Insert the Top cables (+/-) to rail, positioning the (+) to the right when viewed from the inside.

3. Attach Lightboxes ensuring the + & - are aligned.

- 4. Adjust Lightboxes to desired height by pulling cables upward (A), to shorten cable depress part (B)
- 5. Once desired height is achieved and installation is complete, trim Top cables inside knuckle C.

Lightboxes are ready to be illuminated.
