

Gambie System Instructions

Please read instructions carefully before assembling unit.

Step 1 - Post Assembly

Assemble the post to the base using the (2) bolts provided using the hex key provided.

Note: Pole assembly is aluminium - do not over tighten hex bolts.

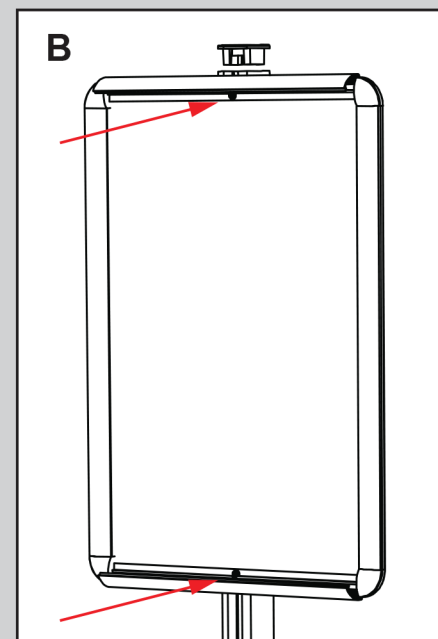

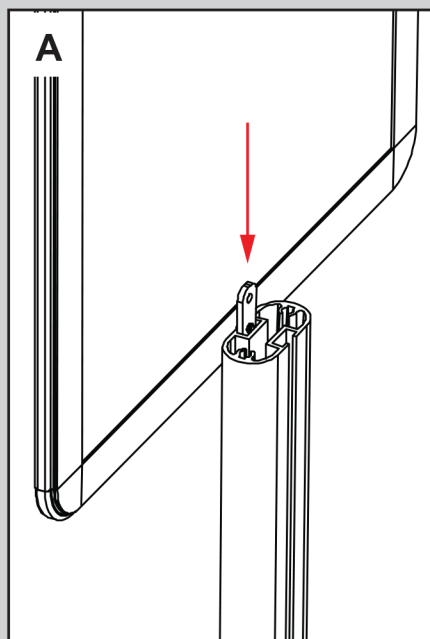

**Brochure holder only available on selected models*

Step 2 - Clip Frame

(A) Slide the clip frame down the channel in the pole.

(B) Flip open the top and bottom clip. Tighten the screws from the front at the desired height.

Step 2 - Brochure Holder (only for selected models)

(A) Slide the brochure holder down the channel in the pole.

(B) Tighten the screws from the front at the desired height using a screw driver.
